PREMATURE BURIAL.—The Alabamy Register,

Some years ago we were perfectly cognizant to heart-rending character. The wife of a gentle- ER. man was taken suddenly ill in church, and was carried to her home in a state of syncope. In a few hours she partially recovered, but immediately relapsed, and never again showed any signs of consciousness. She lay in this condition nearly two days, baffling the skill of physicians, and then, as it was thought, and as there was almost every reason to believe, died. No signs of breathing could be detected, the limbs became rigid and cold, and the eyes remained opened with the fixed and glassy stare of death; but there was no change in the color of the skin. This was the only reason in the world for supposing that the dissolution Co's. Livery Stable.

Pepsin is the chief clement, or great digesting priniple of the Gastric Juice-the solvent of the food, he purifying, preserving and stimulating agent of the Stomach and Intestines. "It is extracted from the digestive stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and turnishing a complate and perfect substitute for it. By the aid of this preparation, the pains and avils of indigestion and spepsia are removed, just as they would be by a withy Stomach. It is doing wonders for Dyspeptics, caling cases of debility, emaciation, nervous decline, an! Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific evidence upon which it is based, is in the highest degree curious and remarkable.

Scientific Evidence .- Baron Liebig in his celebrated work on Animal Chemistry, says : "An Artificial Digestive Fluid, analogous to the Castric Juice, may be readily prepared from the ciucous membrane of the stemach of the Ox, in which various articles of food, as meat and eggs, will be softened, charged, and digested, just in the same manner as they would be in the human stomach.?
